

Pull Ahead BC Program for Small Manufacturers.

Do you want to become more profitable through skill improvements and Lean learning? What is **PULL?** – Profit using Lean & Learning

Canadian Manufacturers & Exporters BC announces an opportunity in our new fully funded Continuous Improvement Training Program for BC Small Manufacturers with 50 or fewer employees. We call it **PULL**.

Training Program **Benefits** to your company and to your people

- Turns on untapped talent in your workforce: skills, knowledge, wisdom, expertise
- Eliminates wasted time, effort, and materials using Lean tools and training
- Accelerates results by replacing learning the 'hard way' with shared best practices
- Learning facilitated by CME lean & essential skills experts at your work site
- Projects targeted for improvement are determined by company leadership

- Accelerated learning through the Continuous Improvement Networks forming now

We cover the following in our Information and Awareness sessions:

- **Speak to the Lean Expert** - Our experts are running successful manufacturing consortia right now. Find out how and why Lean Consortia will dramatically improve your company's profitability and growth potential.
- **What is Lean?** Why it works. How to avoid the pitfalls and mistakes - how to make sure Lean Consortia works for your company.
- **How does the Consortia/training model work?** What is the length of the program and the time commitments? How does consortium leverage learning? What is a continuous improvement network?
- **What are Essential Skills and why will they improve your bottom line?** And a whole lot more – including free breakfast for the morning sessions

**Canadian
Manufacturers &
Exporters**
